Drug name

AyurSlim

Drug Uses

AyurSlim helps maintain healthy bodyweight, regulates the metabolism of fats, protects overweight people against possible consequences of excess lipids and provides esthetic value.

How Taken

2 tabs twice a day after breakfast and dinner, for a minimum period of 3 to 6 months.

Drug Class and Mechanism

AyurSlim is a clinically proven, safe and effective polyherbal formulation that helps to regulate your fat production and utilization. It also eliminates your craving for sweets, normalizes energy production and utilization in the body and helps you stay trim and healthy.

Missed Dose

If you miss a dose of this medicine and you are using it regularly, take it as soon as possible. Do not take 2 doses at once.

Storage

Store at the room temperature away from moisture and sunlight. Keep out of the reach of children.

Warnings Precautions

The use of AyurSlim is contraindicated in pregnancy, but it can be taken safely after lochia - the normal uterine discharge of blood, tissue, and mucus from the vagina after childbirth - stops. AyurSlim is also contraindicated in patients with jaundice and kidney failure.

Possible Side Effects

AyurSlim is not known to have any side effects if taken as per the prescribed dosage.

More Information

In patients who are already suffering from problems like diabetes, heart problems and high blood pressure, it is advisable to take AyurSlim under medical supervision.
