Market Facts

- Acne treatments most dynamic with 20% current value growth in 2007
- Acne treatments were the best performing product area in 2007, achieving 20% current value growth over the previous year. This was chiefly due to the re- launch of leading brand Mentholatum Acnes from Rohto Pharmaceutical Co Ltd in 2006. The brand was re -launched with a more effective formulation and grew share dynamically in 2007 as a result.
- Acne treatments are also expected to see strong growth during the forecast period, with constant value growth of 42%. Growth will be supported by further new product development. The growing number of busy and affluent young workers suffering from acne will make this product area highly attractive to players during the forecast period, with these consumers generally willing to pay more for products that are convenient and enhance their appearance. New launches are therefore expected to focus on swiftly absorbed formulations that also claim to improve skin condition.

Historic Sales

Following figure shows the sales of acne treatment product during the period 2004 to 2007.
